

TEMPORARY STAFFING COMPANY OF THE YEAR

Executemps Ltd.

BERMUDA

Executemps Ltd. is an immigration consultancy and administration service company primarily specialising in managing the red tape of Bermuda's immigration processes. The Hamilton-based venture is a well-established corporate entity that has been a significant player in assisting businesses to navigate the bureaucracy of operating in Bermuda and is the only comparable company owned and managed by a former Bermuda immigration corporate manager. Incorporated in 1982, Executemps Ltd. has built a reputation for being one of the country's foremost immigration businesses and current director and owner, Michelle A. White, continues that lineage of excellence by guaranteeing a dependably high-quality service.

The judges praised the speed and efficiency that encapsulates every client's experience. The team of experts have years of experience guiding and supervising clients through the myriad of bureaucratic processes involved in successfully achieving immigration goals. Their expertise and dedication to first class services means they are able to take over the heavy lifting involved in these often arduous procedures, leaving clients to get on with the more pressing matters involved in the day-to-day running of their enterprises. In addition to meeting client's temporary staffing needs, services include work permit processing, immigration process audits and immigration appeals.
